## 5. Fire Fighting Measures

---

<b>Suitable (and unsuitable) fire extinguishing media:</b>	Use dry chemical fire extinguisher. Do not use water or halogenated compounds, except that large amounts of water may be used to deluge small quantities of this product.
<b>Specific hazards arising from the product</b>	Inhalation, skin or eye contact, can result in serious injury. This product is not combustible or flammable. This product is not considered to be an explosion hazard, although reaction with water or other incompatible materials may rupture containers. When this product is wet, it can be very slippery and can result in a slip hazard. Hazardous Combustion Products: None.
<b>Special protective equipment and precautions for fire fighters</b>	Wear full fire-fighting turn-out gear (full Bunker gear), and respiratory protection (SCBA) to prevent inhalation, skin or eye contact.

## 6. Accidental Release Measures

---

### Personal precautions, protective equipment, emergency procedures:

Avoid inhalation, eye and skin contact. Avoid generating airborne dust. Wear appropriate protective clothing as described in section 8.

### Methods and materials for containment and clean up:

Utilize cleanup methods that minimize generating dust: vacuum. Avoid dry sweeping. Residue on surfaces may be removed with copious amount of water or vinegar.

## 7. Handling & Storage

---

**Safe Handling:** Avoid inhalation, skin and eye contact. Avoid generating airborne dust. An eye wash station should be readily available when this product is handled.

**Safe Storage:** Keep in tightly closed containers. Protect containers from physical damage. Store in a cool, dry, and well-ventilated location. Do not store near incompatible materials (see Section 10 below). Keep away from moisture. Long-term storage in aluminum containers is not recommended, as calcium oxide may corrode aluminum over long periods of time

**Engineering Controls:** Use with adequate general or local exhaust ventilation and to maintain exposure below occupational exposure limits.

### Individual Protection Measures (Personal Protective Equipment):

**Specific Eye / Face Protection:** Safety glasses with side shields. In windy conditions, or if work activity generates elevated airborne dust levels, dust proof or chemical goggles are recommended. Contact lenses should not be worn.

**Specific Skin Protection:** When there is a risk of skin contact, wear appropriate clothing and gloves to prevent contact.

**Specific Respiratory Protection:** If exposure limits are exceeded, an approved particulate respirator, or supplied air respirator, appropriate for the airborne concentrations, should be used. Selection and use of the respiratory protective equipment must be in accordance with applicable regulations and good industrial hygiene practices.

**Other:** An emergency eye wash fountain and shower are recommended.
